INSPIRE ROBOTICS CHALLENGE 2026

Theme: Empowering Young Innovators to Build Sustainable Solutions for Our Planet

● CLIMATE EDITION ●

A MESSAGE FROM THE TOURNAMENT DIRECTOR

The Inspire Robotics Challenge (IRC) 2026 – Climate Edition marked another significant milestone in our journey to inspire the next generation of innovators, engineers, and problem-solvers.

Hosted by **Stemtrix EA**, this year's challenge invited young people from across Kenya to explore one of the world's greatest challenges—Climate Change—and respond through creativity, robotics, coding, engineering, and innovation.

Across two successful tournaments held in Molo and Nairobi, hundreds of students demonstrated that innovation knows no age. They designed robots, programmed intelligent solutions, presented impactful projects, and collaborated as teams to solve real-world problems.

The Inspire Robotics Challenge continues to grow as one of Kenya's leading robotics competitions, providing learners with opportunities to develop future-ready skills while building confidence, leadership, teamwork, and resilience.

To every student, teacher, parent, judge, sponsor, volunteer, and partner—thank you for believing in the vision.

Christine Onyango
CEO, Stemtrix EA
Founder & Tournament Director

ABOUT THE INSPIRE ROBOTICS CHALLENGE

The Inspire Robotics Challenge (**IRC**) is an annual robotics and innovation competition organized by **Stemtrix EA** to inspire young people to become creators of technology rather than consumers.

Through robotics, coding, engineering design, and project-based learning, learners develop critical **21st-century** skills while solving meaningful real-world challenges.

The **2026 Climate Edition** encouraged students to investigate environmental challenges and develop innovative technological solutions that contribute to a more sustainable future.

CLIMATE EDITION – TURI

Hosted on **6–7 March 2026 at St. Andrew's Turi**, the tournament brought together **St. Andrew's Turi, Premier Academy, Kigwa Ridge School, Rift Valley Academy Kijabe, Children's Garden, La Salle Homabay School, Jalaram International School Kisumu, School of the Nation and Cybertech**. Students competed in **Scratch, Python, Project Presentation, Robot Sumo, Line Following, Robot Game Explore, Challenge and Innovators categories**.

DISTINGUISHED GUESTS

Guest of Honour: Geert Simons (CEO, St. Andrew's Turi).

Special Guests: Simon Kasisi (Britam Kenya) and Jackson Munywoki (Deputy Director, Ministry of Sports). Their presence reinforced the importance of STEM education and robotics as a platform for youth development.

OUR JUDGING PANEL

Chief Judge: Albert Migowa.

Judges: Evans Sirali, Joel Muriithi, Caroline Maina, Ezekiel Yiamat, Alexina Mutsami, Selvin Bosibori, David Kihoi, Irene Mutile, Dickson Onyango, Jacinta Okwako, Joseph Mulwa, Gideon Sipoi, Nimrod Syeunda Ndege and Simon Matere.

LEAVING A GREENER FOOTPRINT

The Climate Edition concluded with the planting of 300 trees, demonstrating that innovation goes hand in hand with environmental stewardship.

NAIROBI CLIMATE EDITION

Hosted by Premier Academy on 14 March 2026 with Braeburn Thika, Premier Academy, Braeburn Gitanga, Holy Cross School, Brookhouse Karen, Brookhouse Runda and Diamond Junior School.

SPONSORS & PARTNERS

Heartfelt appreciation to **St. Andrew's Turi, Britam Kenya, S3 Education and the Ministry of Sports** for their invaluable support.

Karbanet Road Gate J2

CELEBRATING OUR HOSTS

Special recognition to the entire St. Andrew's Turi community for their outstanding hospitality. We especially thank Mr. Elias Mutua, Lead ICT Teacher and Tournament Coordinator, for his exceptional leadership, coordination and warm hospitality that made the tournament a memorable success.

BEHIND EVERY GREAT TOURNAMENT

MEDIA COVERAGE

Thank you to **K24 TV** for sharing the story of Kenya's young innovators with the nation.

ROAD TO BEIJING

Several schools qualified to represent **Kenya** at the international robotics tournament in **Beijing**. Preparations are underway as teams refine their robots and coding skills.

OUR CORE VALUES

Discovery • Impact • Teamwork • Sportsmanship • Design

LOOKING AHEAD

Stemtrix EA invites schools, sponsors, industry leaders and government institutions to join the Inspire Robotics Challenge 2027 as we continue building a national movement for robotics and innovation.

The Stemtrix EA organising team: Christine Onyango, Saviour Khalwale, Judith Akinyi, Oscar Opondo, Isaac Arabu, Dennis Anali and Robert Owino.

THANK YOU

To every student, parent, teacher, coach, judge, volunteer, sponsor and partner—thank you for making IRC 2026 a remarkable success.
